

Congratulations on your purchase of the NXG Technology **NX-BT-HEAD** Bluetooth Headphones! Like all NXG products, great care has been taken in its design. A combination of advanced engineering and state-of-the-art materials will provide you with years of listening pleasure.

Charging The Battery

- Before using, fully charge the battery using the supplied USB cable. Plug in to any USB port supplying power (Laptop, Computer, AC Charger, Car Charger, etc.).
- A flashing red LED indicates Low Battery and will be accompanied by two audible tones.
- A Solid Red LED indicates that the headphones are charging, when fully charged it will turn off.

Power on/off

Press and hold the Multi-Function button for about 3 seconds to power on or power off the headphones.

Bluetooth Pairing

With the headphones turned off, press and hold the MFB button until both the LED blinks rapidly alternating between blue and red.

Open the Bluetooth settings of your Phone or MP3 player and select **BT Headphone**.

When prompted for the pairing code, enter **0000**.

Once paired, only the blue LED will flash on and off about every 4 seconds.

Playing Music

- Select a song, artist, genre, or playlist on your Smartphone or MP3 player.
- Press the Multi-Function button to start or pause the music.
- Press the '<' or '>' button to go the last or next song.
- Press '-' or '+' button to adjust the volume.

Hands-free for calling

- Answer or Drop a call - Press the Multi-Function Button once quickly.
- Reject a call - Press and hold the Multi-Function Button for about 2 seconds.
- Redial the last call - Press the Multi-Function Button rapidly twice.

Note: After making or dropping a call the headphones will re-start your music.

LED Indicator	Status of the Headphone
Blue LED flash fast	No connection
Blue and Red LED flash alternately	Pairing mode
Blue LED flashes slowly	Connected, playing or calling
Red LED light on	Battery is charging
Red LED light off while charging	Battery is full
